

## Dazzle on a Budget!

**“Remember, the devil is in the details!** You’ll be surprised by the small, yet challenging, details you run into (when setting up an offsite event)... What about making sure the presenters arrive on time...and the A/V equipment all works?”-This excerpt is from the article “Insights for Planning Offsite Events”

You don’t have to worry about this one if you have your own equipment. Now I bet you are saying, **“I can’t afford it, a whole system? I don’t even know what I need!”** How about having an all in one, easy to use and affordable system on wheels? You can play music, have two or more wireless presenters and control it all from one simple unit. The SW915 Digital Audio Travel Partner from AmpliVox® Portable Sound Systems is that system. The Digital Audio Travel Partner has many capabilities that are built in plus the ability to expand sound coverage depending on your needs. All these great features create the perfect solution to presentations on the go.

**“But, I’m not an A/V person!”** Relax, you don’t have to be. The plug and play design makes it an easy to use system, yet the features on the amplifier make it technologically advanced. The SW915 Digital Audio Travel Partner has a built-in receiver and 250 watt amp that drives two 6.5 in. NEO woofers and dynamic compression driver in a rugged molded case with a built-in tripod mount and retractable handle. Its full frequency response of 40Hz – 20KHz provides extra sound reinforcement power to cut through noisier indoor settings. It has an SPL of 126dB. The SW915 is powered by AC or rechargeable internal batteries. 126dB - That’s as loud as a rock concert!

The SW915 is the first PA in the industry to have a digital pre amp and a remote control, allowing it to cover any size room and handle any presentation. It features 250 watts of power driven by internal rechargeable batteries or AC that give you up to 30 hours of battery runtime. One stand out feature is the multimedia capabilities. You can have 5 devices running at the same time - that works out to: 2 built-in wireless mics plus 3 wired or external wireless devices. So you can hook up a computer, run your sound through the SW915 and then cue your visual presentation and speak though the wireless mic.

Rated power output:	250W Dynamic, 132W RMS
Battery:	(2) 12 volt rechargeable, 7.2 AH, User accessible and replaceable 110-220 Auto sensing, 50/60 Hz,
AC power :	
Phantom Power Input:	Powers Electret condenser mics
Wireless Range:	Up to 200 Feet
Frequency response:	40Hz to 20KHz
Sensitivity:	96dB
Equalization (tone)	Separate Bass and Treble
Line output:	Buffered, 600 ohm, 1/4in.-phone (pre fader)
Unbalanced input:	Hi-Z, Neutrik combo 1/4in.
Balanced Input:	Lo-Z, Neutrik combo XLR
Weight:	35 lbs.
Dimensions (HWD):	23in.H x 11.5in. W x 11in. D
Warranty	6 years Electronics; 1 year on remote, Mics, Cassette Player, CD Payer, Digital Player and Rechargeable Batteries.

### REMOTE CONTROL

Unique feature lets you adjust master and individual volume controls, mixer, reverb/echo, mute and talk-over functions, from any location in room up to 30 ft. as the unit has sensors on all four sides.

The technology of portable sound systems is advancing at an alarming rate, so you need to choose wisely. You need to look for the right features for what you need and will grow into. How far will the sound reach? How many speakers can I add? How long is the warranty? Is it built in the United States? Is it capable of handling multimedia presentations?

### The answer to all these can be found below:

Features: 250 Watts, Audience Size 7,500, Room size 25,000 sq.ft. ■ Built-in Digital UHF 8 channel wireless receiver with choice of lapel, handheld, collar or headset mic with transmitter ■ Wired XLR mic ■ Built-in Digital CD/CDR/CDRW/MP3 disc player with pitch control ■ Digital pre amp ■ USB input ■ Two 6.5 in. NEO woofers and dynamic compression driver, SPL 126dB ■ 3 Neutrik Combo XLR mic Inputs ■ Mute ■ Reverb / Echo ■ Talk-over (Ducking) - Automatic reduction of music when mic is used ■ Voice/Music Button ■ AC Power cord and rechargeable batteries for up to 10 hours of run time ■ A specially tooled and molded plastic enclosure for exceptional durability with tripod mount & retractable handle & wheels ■ Remote control ■ Weight 35 lbs. ■

**“Well, that sounds perfect!”** you say. **“But how much is it going to cost me?”** A little more than a two thousand dollar investment in your company’s future. Not bad for a product that is going to last you a very long time and that is durable, portable and expandable. Did I mention the 6 year warranty?

Take the **Digital Audio Travel Partner** to meetings, trade shows, sporting events, school assemblies, and auctions. Whether it is used indoors or out, the **SW915 Digital Audio Travel Partner** is the sound presentation solution for your environment.
