

BENEFITS

Protect your speaker from the elements with the **S1995 Protective Cover**. Designed for temporary outdoor use, the S1995 Cover is perfect solution for keeping the PA speaker going no matter what the weather dishes out. This custom-fit cover is made from water-repellant nylon fabric and sound transparent mesh. Rear access panels let you hook up cables, antennas and access controls with ease while keeping your gear dry.

Two large pockets; 12" L x 8" W x 1 1/2" D with a hook and loop fastener flap for microphone and cable storage.
