

650 Anthony Trail, Suite D, Northbrook, IL 60062

6 Year Warranty Base Unit, 1 Year on Battery

**ALL-WEATHER • PORTABLE • EASY SET-UP**

Whether you need a temporary means of transmitting announcements or a low cost, rapidly deployable package for disaster relief teams, the **AmpliVox All-Weather Hailer** does it all.

The entire system contains a communication case and a set of speakers that can be easily transported and set up by one person. All electronics are housed in a rugged, sealed, fully weatherproof carrying case.

Use your own 2-way radios (2 are needed) or the AmpliVox MURS radios for the communication devices. One 2-way radio acts as the receiver and is located inside of the weatherproof case connected to the external antenna and speakers. Using the other 2-way radio as a microphone, you can transmit messages up to 2 miles away.

The rest of the system consists of a flex antenna, rechargeable battery, integral charger, a 110VAC power supply, and a separate PA horn / speaker assembly that attaches to an aluminum contractor grade, wide frame, extension leg type tripod.

Multiple stations can be setup throughout an area and activated simultaneously as a group.

- Works with your 2-way radios or optional AmpliVox 5 channel MURS radios
- Long Range, Up To 2 Mile Range
- Improves Communication, Safety and Security
- Loud, PA Horn Speaker
- Setup Virtually Anywhere

Inside View
