

The **AmpliVox SL1039 Package** includes a top loading cassette deck that both plays and records along with a six station headphone jack box with individual volume controls! The cassette recorder features easy to use buttons, a one-touch record button, and an automatic voice level control.

You can record using the built-in microphone or use the included external microphone with handy desk stand. A headphone jack is included for private listening and for connecting the headphone jack box. The auxiliary line-in jack allows you to also attach your cell phones, MP3 or other Digital Audio Players to the unit.

The SL1039 operates on four (4) x "C" size batteries (not included) or with the AC adaptor (included).
