

The **AmpliVox Tripod Speaker Stands** are lightweight and compact, making them an excellent choice for small portable PA's. The complete pack includes a pair of aluminum stands and a carry bag to keep them looking new, no matter how often they are transported.

An ergonomic knob adjusts stand height from 37" to 60", while the folding tripod base maintains a low center of gravity, allowing exceptional stability when used with speakers up to 60 lbs. in weight. The 1-3/8" upper shaft is compatible with virtually all current pole-mount speakers, and the included 1-1/2" adapter accommodates older models for a universal fit.

TRIPOD SPECIFICATIONS:

- **(2) Tripod Speaker Stands:** All-aluminum stand with 1 3/8" upper shaft; 1 1/2" adapter included for universal fit.
- **Height Adjustment:** 37"-60"
- **Weight Capacity:** 60 lbs.
- **Speaker Stand Bag:** Adjustable shoulder carrying strap, 2 carrying handles and a heavy-gauge 2-pull zipper. Holds 2 speaker stands.
