

LED Lectern Light

Features:

- Four different light level options
- Two flexible 9" long goosenecks arms provide infinite maneuverability
- Two bright white, energy-efficient LED lights per lighting head
- Each LED lasts 100,000 hours, never needs changing
- Precisely engineered optical grade lens spreads light evenly
- Switches on each lighting head to turn on just one or both LED's
- Extra strong padded clip for extra grip (grip range up to 1 inch)
- Arms fold into compact storage position
- Offers 20 hours of continuous use on 3 AAA batteries (not included)
- AC adapter port (adapter optional)

Color: Black

Dimensions: 13.5" x 1.5" x 1.75" (Length x Height x Width)

Great for:

- Lecterns
- Karaoke Dj's
- House of Worship
- Boat Operators
- Public Speakers
