Our ProMarine Waterproof Megaphone is built tough to stand up to the most demanding real world applications. When you need a reliable means of communication under harsh weather conditions you can count on this megaphone.

- Made of high impact polycarbonate material and waterproof components
- Carefully built to IP67 (Ingress Protection Standard) for dust and water submersion (waterproof) and MIL-STD-810F 516.5 specification for shock
- Shock absorption rubber cushions on front edge and back protect from rugged use and dropping
- Not only is the ProMarine Megaphone waterproof, it’s also fully submersible. Drop this megaphone into water and it will float to the surface
- Long lasting, rechargeable Lithium-ion battery; user replaceable.
- Wrap-around handles add increased durability and added protection against cracking and breaking

RUGGED MIL-STD-810F

SUBMERSIBLE 3′ for 30 Min.
