The S9190 Quad Wireless Receiver offers four channels of uncompromising audio quality in a convenient and space efficient rack size unit.

- Rugged yet lightweight and compact, the 2RU rotational molded chassis houses four independent receivers that can be used simultaneously, each with 16 channels of selectivity, audio and RF indicators, volume control, and a balanced XLR connector with summed output.

- Use in a built-in rack mount, compatible with many of our PA's and Lecterns, or on its own, as a portable system.

- Works with any combination of up to FOUR handheld, lapel or headset AmpliVox wireless transmitters.

Excellent for use in schools, universities, restaurants, bars, hotel conference rooms, conventions, corporate boardrooms, churches and more.

Use in a built-in rack mount, compatible with many of our PA's and Lecterns!

Rack rails - standard 10u, 12u, and 20u sizes
